

GrantScript

Streamlining Research Funding Opportunities

Comprehensive Platform for Grant Discovery, Application, and Management

2024 Platform Overview

Platform Overview

Research funding is competitive. Success requires not just great ideas, but professional presentation, precise formatting, and strategic narrative structure.

17%

Avg Success Rate

40+

Hours per Proposal

23%

Rejection Due to Format

Core Features

Proposal Idea Completion

Creates developed draft tailored to most major agencies

Success Modeling

Predicts award probability using funded proposals

Revision Engine

Iteratively improves drafts using reviewer-style comments

Format Compliance

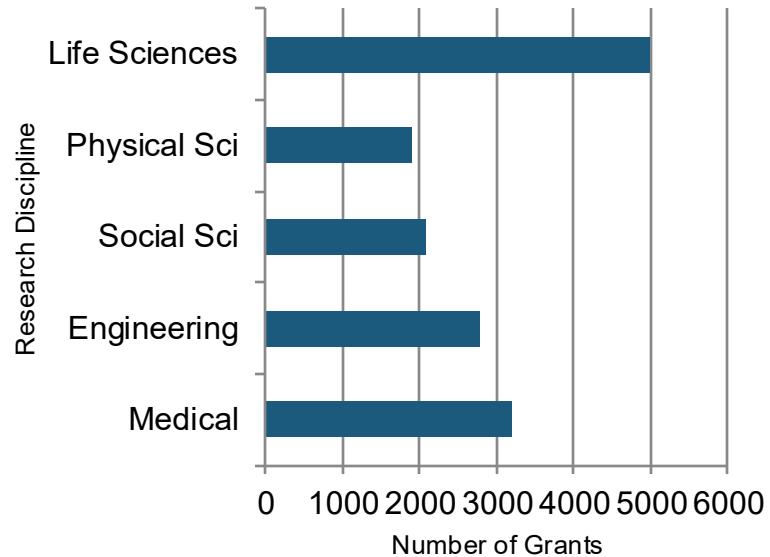

Auto-formats to be aligned with major funding agency requirements.

AI Training Foundation

RAG

- Built from 20 successful proposals
 - Sourced from funding agencies like NSF
- Disciplines covered include:
 - STEM, Social Sciences, Humanities
- Application deadlines

Pro Tip: Save custom search filters for instant updates on new matching grants.

Application Workflow

1

Input Your Idea

Describe your research concept as detailed as possible

2

AI Analysis

System matches patterns from successful proposals

3

Draft Generation

Creates professional, formatted proposal draft

4

Refine

AI provides reviewer style feedback for improvements

Streamlined Process

From discovery to submission in a single integrated platform, reducing administrative burden and improving success rates.

The Product

The screenshot shows the homepage of the GrantScript website. At the top, there's a dark header with the "GrantScript" logo on the left, a navigation bar with links for "Features", "How It Works", "Security", and "App", and a prominent green "Get Started" button on the right. Below the header, the main headline reads "Win more grants, faster" in large white text. A subtext below it says "AI-powered grant discovery and drafting that helps teams create high-quality proposals in one-third the time." Two buttons, "Start Free" and "See Features", are positioned below the headline. To the right, there's a dark callout box with three colored dots (red, yellow, green) at the top, followed by three horizontal bars of increasing length. Below these bars are three circular buttons labeled "RFP Analysis", "Needs Statement", and "Budget Narrative". Further down the page, under the heading "What makes GrantScript different", there are four dark callout boxes with white text: "Understands your voice" (with subtext "Advanced semantic"), "Search + write together" (with subtext "Discover aligned"), "Built by grant pros" (with subtext "Shaped by practitioners with"), and "Security-first" (with subtext "Your data is private").
